4 - Working Group

Title: EPDP: Specific Curative Rights Protections for Intergovernmental Organizations (EPDP_SCRP_IGO)

The GNSO Council initiated this work to consider "whether an appropriate policy solution can be developed that is generally consistent with the first four recommendations from the GNSO's IGO-INGO Access to Curative Rights PDP and:

- 1. accounts for the possibility that an IGO may enjoy jurisdictional immunity in certain circumstances;
- 2. does not affect the right and ability of registrants to file judicial proceedings in a court of competent jurisdiction;

Drainet Managament

- 3. preserves registrants' rights to judicial review of an initial [Uniform Domain Name Dispute Resolution Policy or Uniform Rapid Suspension decision; and
- 4. recognizes that the existence and scope of IGO jurisdictional immunity in any particular situation is a legal issue to be determined by a court of competent jurisdiction."

The GNSO Council originally created a Work Track within the RPMs PDP WG, based on the Council referral of recommendation 5 from the IGO-INGO Curative Rights Protection Mechanisms PDP WG Final Report. The Addendum to the RPMs PDP Charter was adopted by the GNSO Council in January of 2020. On 19 August 2021, the GNSO Council initiated the Expedited Policy Development Process (EPDP) on Specific Curative Rights Protections for IGOs to enable the policy development of the IGO Work Track to continue without delay, considering the step to be an entirely procedural action and having no impact on the scope of work.

Status/Health Rationale:

• This project maintains a <u>Status</u> of "Behind-Schedule" and <u>Health</u> of "On-Target".

Current Activities:

- Review of <u>public comment</u> responses to Initial Report.
- Revise <u>recommendations</u> as appropriate to prepare the Final Report.
- PCR to Council requesting additional time as noted in the Risks section below.

Planned Activities:

• Determine levels of consensus on recommendations.

Open Issues, Risks & Mitigation Plan:

- The EPDP team largely considers its current preliminary recommendations as "generally consistent" with recommendations #1-4 from the original Curative Rights PDP. The outcome of its review of the Public Comments should provide clarity as to whether the EPDP team's chartered scope of work is sufficiently broad to allow for development of an appropriate policy solution.
- The EPDP team has not considered it necessary to make recommendations as to specific arbitral rules and providers at the policy development phase. If a review becomes necessary, the EPDP team will need to submit a request to the Council and the additional work will entail additional resourcing and time.
- Based on an initial analysis of the Public Comments, the EPDP team is submitting a Project Change Request to extend its completion date. In addition, it may need to consider accelerating the pace and cadence of its upcoming meetings to minimize the risk of any additional delays.

Completed in prior period(s):

- Public comment closed 24 Oct 2021 with 14 Individual, 13 Organization, and 6 Community groups submitting comments.
- Confirmed delisting of Recommendation #2.
- Confirmed revised Recommendation #6.
- Confirmed revised Recommendation #1.
- Completed and distributed Project Package for November.

	Al	Jay/Paul to confirm the intent of the BC/IPC comment: Accordingly, one potential compromise alternative to exempting an IGO from the mandatory submission to a "Mutual Jurisdiction", would be amending UDRP Rules Section 3(b)(xii) with an explicat cavet as follows: "State that Complainant, without prejudice to an IGO Complainant's privileges and sovereign immunity, will submit, with respect to any challenges to a decision in the administrative proceeding cancelling or transferring the domain name, to the jurisdiction of the courts in at least one specified Mutual Jurisdiction."	-	Jay Chapman Paul McGrady	12/10/21		In Progress	
	Al	IGOs (Brian) to respond on-list to ICA response quoting from Prof Swaine: "As a purely legal matter, it seems unlikely that the Mutual Jurisdiction provision, as it may be accepted by an IGO, establishes or occasions a violation of IGO immunity [and] it may seem more appropriate to require an IGO to ablide by a judicial process, given that it has elected to initiate UDRP proceedings, than it would be require a domain-name registrant to accept the IGO's preferred alternative"	-	Alexandra Excoffier Brian Beckham David Satola	12/10/21		In Progress
